Our Products

Caudalie was founded in 1995 when Mathilde and Bertrand Thomas, the founders of Caudalie, had a chance encounter with Dr. Vercauteren, professor at the University of Pharmacy, Bordeaux, and the world's leading expert on grape and grapevine polyphenols. On the vineyards of the Château Smith Haut Lafitte in Bordeaux, the professor noticed the leftover skins and seeds of the grapes from the harvest and explained to the couple that the polyphenols in the grape and grapevines had extraordinary anti-oxidant powers and that grape seed is the most powerful antioxidant created by nature.

Their technology and innovation have made them one of the world's top skincare brands, whilst uniquely remaining a 100% independent family owned business. Caudalie has also become a cult favourite amongst celebrities, make-up artists, beauty editors and they have won several esteemed beauty industry awards in the UK.

They have since created three patents to protect, nourish, brighten, lighten and firm the skin and rigorously research and trial the latest scientific advances to guarantee maximum effectiveness for each and every product.
